Enter With Us The World Of Randolph High

The high school from which we seniors are about to depart has served its purpose well. It has broadened our knowledge, taught us many values, and helped develop us into fully responsible adults. In general, it has made our lives more fulfilled. Soon it will be a thing of the past, a memory. The 1973 Oracle is our senior year re-captured. In the pages of this book lies a world quite different from all other worlds. It is a world full of achievements, disappointments, joys, and memories. It is the "World of Randolph High".

A World Of Knowledge, Why R.H.S. Exists

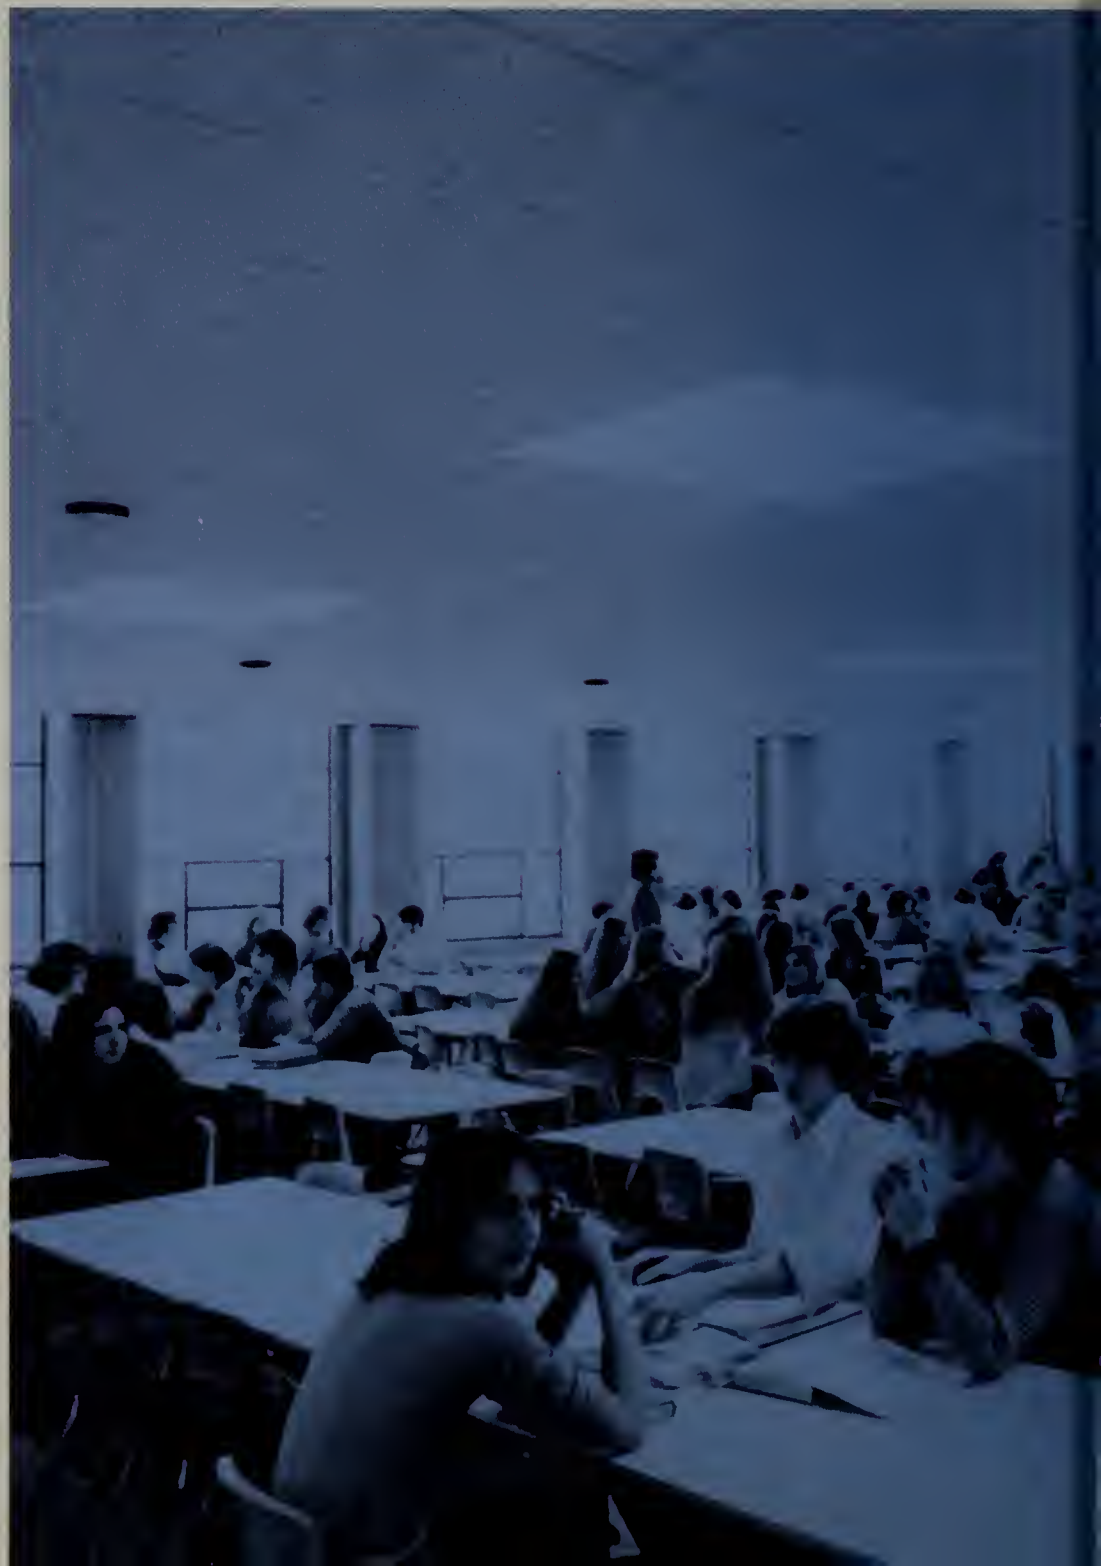

... Sewing

... Composition and Film Class

... Art

... The Greenhouse

Our school has undergone many changes in recent years. Among these are the addition of open campus, the greenhouse, and exciting new courses. All of these support the saying "Learning can be Fun".

Phys. Ed.

A World Of Fun Mixing Business With Pleasure

... Modern Living For Men

... Office Procedures

One of the most important functions of a school is to help a student expand his knowledge. Randolph High does just that. Here learning is made enjoyable due to new and modern equipment in the classroom. There are also many scholastic honors that are bestowed upon selected individuals. It's because of these factors that the student strives for excellence in his academic performance . . . and enjoys doing it!

... Science

... Class Officers

No school is complete without its merriment. The cries from the auditorium during a football rally, the moving bodies during a dance, the shouts during an athletic event, and the discussion during a club meeting all prove that R.H.S. is also a "World of Fun".

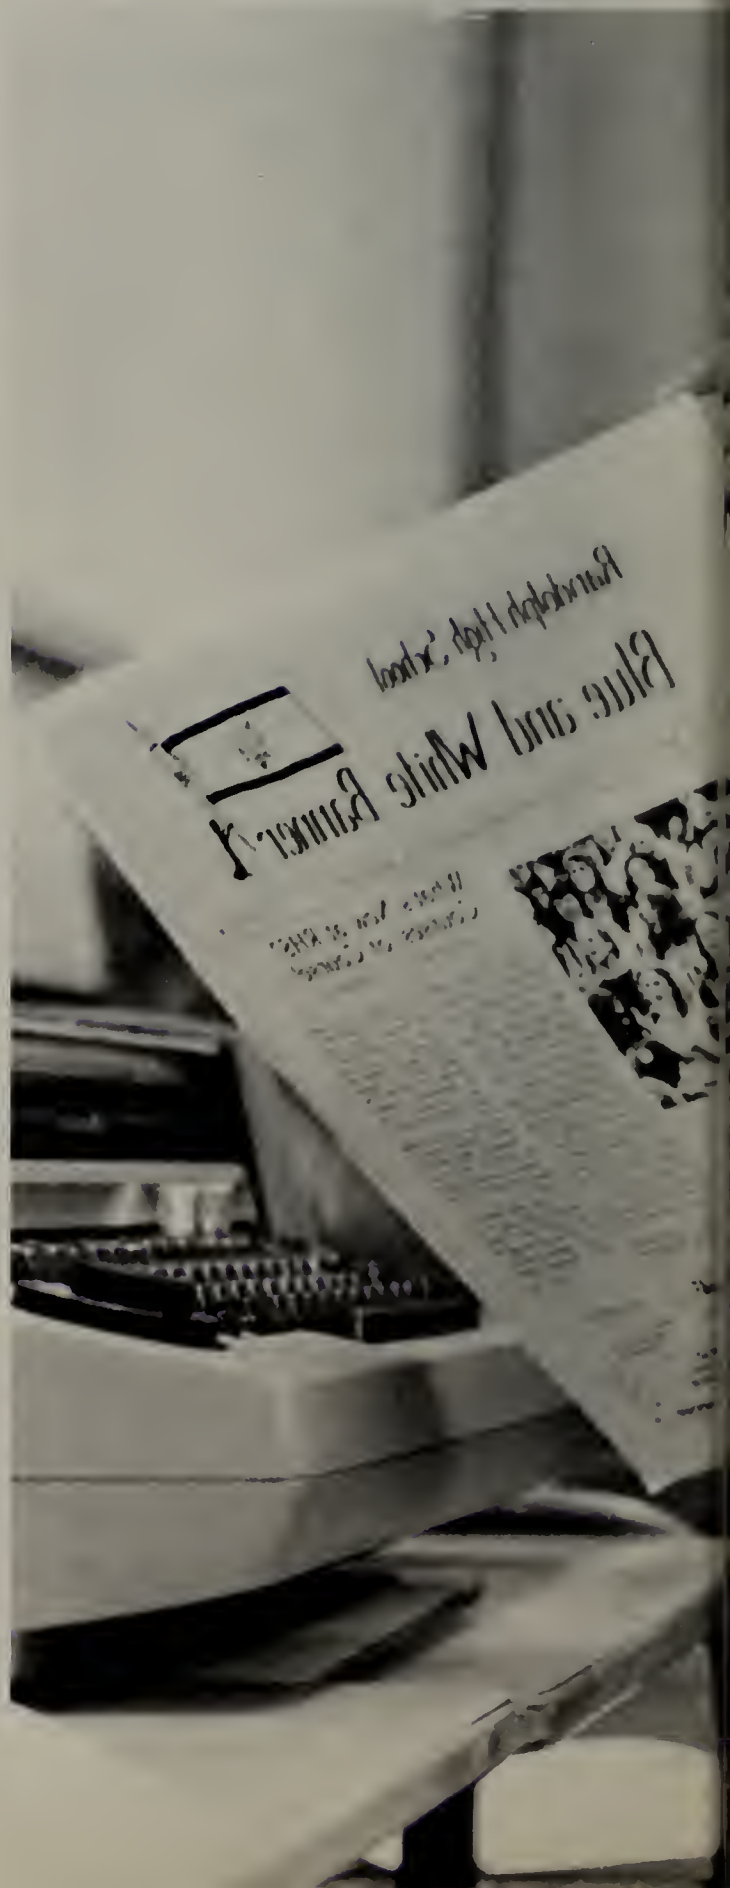

... Determination to win

... Meeting friends in class

**A World Filled With Memories
That is Yours . . .**

... Figuring out a recipe in Home Economics

... Learning to type without cheating

... Watching the Blue Devils in action

... To Remember Forever With Pride

... The typing classes

We are taught many lessons at Randolph High School. One of these is how to cope with the responsibilities of the future. Through education and inspiration, our faculty has prepared us for facing a world of challenges. Their invaluable help will always be remembered by us.

... The projects in shops

... The chemistry experiments

... The caring of the plants

... The studies in the library

"The World of Randolph High"

... Athletic events

An individual requires many essentials in order to be a success. A great deal of these particulars are obtained at Randolph High. Each student can become a success due to his educational background at R.H.S. Our school also surrounds the individual with numerous extra-curricular activities that help to make a person more fulfilled. Everything necessary to produce a successful person is found in "The World of Randolph High".

... Schoolwork

... Extra-curricular activities

in appreciation

JUNIOR VARSITY CHEERLEADERS

You're about to take a giant step forward into your future. We think we can make it the bright one you want it to be at New England Telephone. With a job that's every bit as big as your ambition. You see, we need people. With all kinds of talents. And especially, people who really want to get going with their future. And want to be rewarded with automatic raises. If you want a job and a future that's tailored to your talent... along with unusually generous fringe benefits, stop in and see your guidance counselor. Ask when and where you can apply for an interview with the people who want to make your future as happy as you want it to be.

THE MINDBENDERS

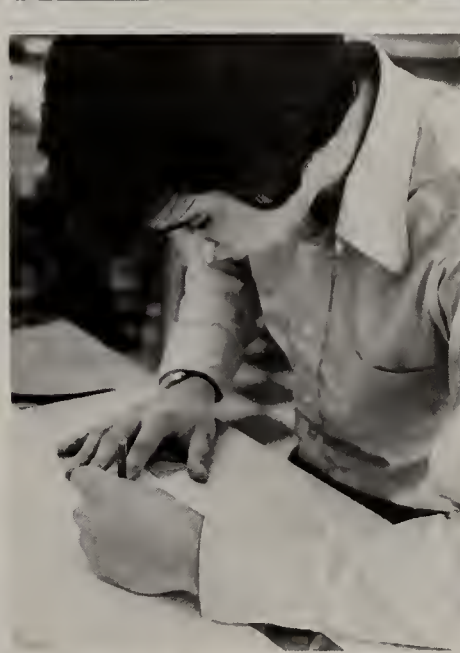

WORK FOR YOU AT DELMAR

Printers of the 1973 ORACLE

Imagination; innovation; creativity; prognostication are the special talents of those who develop the future at Delmar. They are not a strange breed, for we encourage and employ those who have a flair for generating exciting graphic ideas for our customers. We think you should expect this from a professional visual graphics company. After all, to be relevant to the now, we need to know something about tomorrow.
